Send subscriptions to the Business Manager. All other communications should be addressed to the Editor. Reproduction of matter appearing in KLEOS is permitted, provided that KLEOS is mentioned along with the name of the author where given.

Alpha Phi Delta is a member of the National Interfraternity Conference.
Published by the George Banta Publishing Company, Menasha, Wisconsin.

AT ABOUT this time every year I receive numerous inquiries regarding the coming Alpha Phi Delta Annual Convention. This is always a source of great pleasure to me, because to my mind there is only one explanation for the enthusiastic interest which is yearly displayed.

There are the brothers who have attended one or more previous conventions, and have returned home or to school so impressed with the warm, fraternal spirit prevalent, and with the three days of carefree entertainment, that they have definitely determined not to miss any future convention. I have often heard, "I did not realize what the fraternity really meant until I attended my first convention." To be followed by the remark, "and you can be sure I'll never miss another."

Then there are the less fortunate ones who have not as yet attended a convention, but whose imagination has been fired by the contagious enthusiasm of those who have attended.

At this time of the year they all become anxious. Anxious to arrange their plans for the convention, anxious to partake of the spiritual and social contact of our conventions.

Our conventions have an uplifting influence, and the brothers attending return with a deeper insight into the fraternity and happier men knowing they belong to it.

Another convention is rapidly approaching. To those who have attended previous conventions, there is no need to say anything. They will be present. To those who are still uninitiated, I say, make every effort to attend, and I know you will thereafter always be a convention devotee.

FRANCIS X. PAGANO
Grand Consul

Twenty Years of Progress

By FRANCIS J. PALADINO

TWENTY years may not represent very much in the scale of time, or even in the life span of the majority of fraternity organizations. The foremost Greek letter societies began history in the nineteenth century, earlier or later. *Alpha Phi Delta* sowed its seed twenty years ago—officially. Undoubtedly, many fine dreams were idealized before dreams and efforts could materialize. That our fraternity survived no one questions, nor do we question what this has meant to those so-called old timers—the fathers of *Alpha Phi Delta*. It took years of thought, careful planning, then surmounting frustration of plans, courage—in short, the creation of our fraternity was an almost impossible task. The reason is as obvious as that which so easily mushroomed the 19th century societies into existence. You know that, or you should, as the great catechism of what was once a hopeless ideal. Considering everything, the obstacles, difficult circumstances, situations over which human effort could not circumvent, *Alpha Phi Delta*, by and large has really had a remarkable growth. Our Founders may or may not have had so optimistic a thought as to visualize many collegiate and alumni chapters distributed netlike in almost every major city in the country. It has been a rare privilege indeed and a priceless pleasure to see and hear on occasions, a Founder, here and there, beaming with the unapproachable satisfaction that all's well—in fact, to them, realization became so complex as to create the further deception that it is still a dream.

Yes, the fraternity has been here for us, and will be for others to come; but can any of you picture the loneliness of one, then two, and then two more undergraduates, lost as it were on a campus? Societies all around them, like the proverbial "Water, water everywhere, but not a drop

to drink." They were hungry for comradeship with the spirit of that common understanding and unrestrictive bond without which *Alpha Phi Delta* would long ago have been a failure. They were not mercenary. Friendship, love of fellowmen and understanding cannot be bought. Theirs was a desire for true friendship. Their hopes materialized. Everyone after has helped to forge links on this chain, until now we sometimes lose trace of who added this or that link.

We are about to perpetuate the sacred ideal, in fact. The greater ALPHA PHI DELTA FRATERNITY ANNUAL CONVENTION is this celebration. Our vain pride, due to uncontrollable circumstances, cannot feast on the princely thought that we were founded in 18--; but it is well to remember that they all had a beginning and the struggle must have been analogous. *Alpha Phi Delta* was born on the eve of a world conflict, it has been riding the crest of unrest with the same courage that made it possible for it to live till today for a better tomorrow. Perhaps it is far fetched to say that the ardor and reverence that perpetuates the memory of the American Declaration of Independence is no mean example to follow; but after all, is not our fraternity worth this worship? There is no difference between ideals.

Therefore, this appeal to you. *Alpha Phi Delta* has grown to what it is, not by the power of words, but by the power of its membership. You are that member without whom there could be little meaning to this something we like to say is the ideal of *Alpha Phi Delta*.

Alpha Phi Delta would like again to see gathered together, in person, all those names that have helped and gone. Hundreds of *Alpha Phi Delta* men contributed in time, effort, and money while they were at school. This benefit cannot be

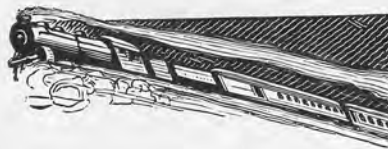

measured, although everyone realizes that this contributed to the longevity of our organization. Why did they drop out from active participation, why don't they make an appearance at an Alumni Club, dinner, or an annual party? There is not one of us who has not, in these very trying times, experienced hardships of one form or another. Many members have repeatedly vowed they would attend the next convention. This ritual becomes a discard with the slightest effort, so that from year to year members promise themselves a holiday, a good time, a reunion, everything—only to postpone the attendance until the following year. In time it becomes easier to forget attending, because you've trained yourself to forget; and at the same time you admit you've lost interest in *Alpha Phi Delta*, and it has lost interest in you. It is easier, much more, for you to lose interest than it is for the fraternity to lose interest in you.

Alpha Phi Delta needs your moral support. There are always friends who ask for you, but you are no more to the fraternity. Fraternity Alumni like to say that they've done their part, they gladly leave the organization to the undergraduates who are only too glad to participate in the activities because it is their duty, their pleasure, and they are living through the most memorable years of their lives. Undergraduates wonder what has become of their alumni brothers. The pride of undergraduates is their chapter and their alumni—have you respected this ideal, or have you abandoned your fraternity, only to falsely console yourself with the thought that the fraternity has forgotten you? Re-

member you are a parent to your undergraduate brother, don't orphan him, assist in preserving the fraternal spirit in order to teach the undergraduate to carry on.

There isn't much time left before the NEW YORK CONVENTION! Plan to visit New York, and to once again get into the swing of your *Alpha Phi Delta*. Your old friends and alumni brothers will be pleased to see you; your undergraduate brothers will be honored to have you amongst them—don't disappoint them, help them celebrate with the spirit of comradeship. The Convention Committee is diligently working to make the New York Convention another successful affair. Lend yourself to *Alpha Phi Delta*, once again become a force in perpetuating the ideals of the Founders of *Alpha Phi Delta*. Feel proud with action; you won't regret it, and it will do you good to know that again you are a vital force in your *Alpha Phi Delta*.

The Hotel Astor, Times Square, New York, will be headquarters for the convention. Inviting rates and all Hotel facilities have been secured in the hope that the Brothers and guests will be assured of benefits and ultimate satisfaction. The attention of the Committee is directed toward completion of all details relative to the big event. Schedules quoting accessible prices for all to every phase of the convention have been sent out to all members. Likewise, a list of the activities, social, business, single and collective, and reduced rates has been included in the mailings to you. Consider the possibilities which the committee has unfolded to you, and help it register success.

With the A Phi Dees

By RAY INCORVIA

HUGH ALESSANDRONI, BETA, again qualified for the U. S. Olympic Fencing Team. . . . He will bear watching in Berlin where the world's leading amateur fencers will meet this year. . . . Brother Alessandroni has recently perfected a wire gadget which will record an epee touch . . . this electrical device will be used instead of judges for the epee contests at the Olympic Games . . . not only is he a brilliant swordsman but also an inventor. . . . All *Alpha Phi Delta* will be rooting for Hugh win, lose, or draw. . . . Charles Pessoni, BETA BETA, continued in his winning ways during the past winter indoor track season . . . he won the Metropolitan A.A.U. high hurdles championship in a strong field of competitors. . . . Charley has been sporting the colors of the New York Athletic Club since his graduation from Manhattan College where he was Intercollegiate champion. . . . Aldo "Buff" Donelli, PSI, was a recent visitor to Madison Square Garden, New York City when he accompanied the

highly touted Duquesne University basketball team as its coach. . . . "Buff" has quite a record at the Pittsburgh school. . . . He was twice captain of the Duquesne football team . . . and also played basketball and baseball. . . . Brother Donelli

played soccer in Mexico, Italy and Germany and turned down several pro offers. . . . He was the scoring star of the soccer tourney in Rome last year . . . and scored the winning goals against the Italian team. . . . Has been frosh basketball and football coach of the Dukes for the last six years and also has charge of intramural sports. . . . Is a bachelor of science in economics and holds a master's degree in business administration. . . . Teaches modern industry there. . . . Dr. C. John Satti, GAMMA, of New London, is the Secretary of State in Connecticut. . . . William Roveto, BETA, was elected captain of the 1936-37 swimming team of Columbia University. . . . Brother Roveto, a consistent winner in the fancy dive won the Intercollegiate Swimming Association championship in 1935. . . . Speaking of captains . . . "Chuck" Cherundolo, CHI, chosen for a position in the 1935 All Alpha Phi Delta football team was elected captain of the 1936 Penn State team. . . . Other *Alpha Phi Delta* football team captains in the past have been Aldo Donelli, PSI, captain of the 1928 and 1929 Duquesne football team, Michael Ferrare, PSI, captain of the 1931 team and George Rado, PSI, captain of the 1934 team. . . . Dr. Victor Cione, BETA, recently announced the opening of an office for the practice of medicine and surgery. . . . Brother Cione follows in the footsteps of his father an eminent N.Y. physician . . . like father, like son. . . . Judge M. A. Musmanno, uncle of Neil Musmanno, CHI, is the author of "Black Fury" one of last year's photoplays. . . . Prominently displayed in the NBC studios at Radio City is a collection of early radio inventions by Joseph D'Agostino, PI, one of radio's pioneers.

Metropolitan Committee News

THE Metropolitan Committee which functions in the Metropolitan district of New York is composed of representatives from the seven chapters of *Alpha Phi Delta* in New York City.

The committee is headed by Grand Pro-Consul Alfred Santangelo, ETA, Frank Brescia, ETA, as Treasurer and Vincent Larcy, THETA BETA, as Secretary.

The work of the Committee is to strengthen the bond between the seven Chapters. It has successfully sponsored the Metropolitan Christmas Dinner

Dance, at the Hotel Astor. Its greatest task this semester was the promotion of the Metropolitan Interchapter Baseball Tournament. All the Chapters responded enthusiastically; for a friendly rivalry has been created between them. The Chapter winning the tournament will be awarded twelve small gold baseballs, one for each player, and the Tournament Trophy for the year.

The Committee is aiding the Convention Committee in order to make the New York Convention a success.

Brooklyn Alumni Club

THE Brooklyn Alumni Club held a Dinner Dance on February 4 which was a very successful affair, socially, financially and fraternally. There were more fraternity men at this affair than at any prior one. Both the old and young fraternity men were well represented. An outstanding feature of the affair was the presence of sixteen Beta men, about a dozen of whom were active undergraduates. There was also a large delegation from ETA led by Grand Pro-Consul Alfred Santangelo. Assistant District Attorney Anthony J. Digiovanni, BETA, also attended.

Among those present were Dr. Joseph B. Libassi, Dr. Vincent J. Tesoriero, Joseph V. Franchini, Vito Battista, William Roveto, Patrick Milazzo, John Geozzi, Gil Tomaselli, James Gallo, Vincent Glorioso, Thomas DeStefano, Ralph Verni, Andrew Catania, Joseph Allora, Philip Rooss, John Cincotta, Frank Cantarella, Joseph Randazzo, Alfred Mes-

sina, William Maggipinto, James Santora, George Santangelo, Anthony Aguanno, Sam Crupe, Dominick Rinaldi, Vincent DiFiore, Gastone Babini, Vincent Caccese, Frank Principe and Frank B. Digiovanna.

The committee in charge consisted of Leonard Guarnera, Chairman, and Frank Zumbo, Maurice M. Longo, Michael Leone and Frank J. Fennimore, President of the Alumni Club.

The next affair of the Brooklyn Alumni Club took place on Wednesday, June 24, and was again a Dinner Dance at the Parkway Restaurant, Eastern Parkway and Nostrand Ave., Brooklyn. The chairman of this affair was Gil Tomaselli, BETA ZETA.

Pursuant to the suggestion made by the Grand Tribune-Quaestor, Philip Repino, in his letter to the Alumni clubs in March, the Brooklyn Alumni Club has taken steps to render assistance to the chapters in the Metropolitan area.

Metropolitan Rays

By VINCENT LARCY

BETA CHAPTER

(Columbia University)

BETA had quite an active year, but it will be hard hit by graduation. Four of its good men are going into higher learning. Brothers Cannistraci and Milazzo will continue studies at Medical School, Brother Crupe plans to enter Law School and Brother Glorioso expects to teach.

Last December, six new men were initiated into BETA and several more were expected to go through this semester.

April 11, saw an innovation. For the first time in many years BETA and ETA chapters cooperated in holding jointly their annual Spring Dance. It was held in the "Casino-in-the-Air," of the Hotel Montclair. The dance was a mid-air country club affair (pardon, but the two sentences seem to rhyme) well, anyway, everyone felt in a poetic mood that night; so we'll let it go at that.

The BETA correspondent writes me that an occasion which is going into BETA chapter annals is the "Union City Spree," held recently at Brother Roveto's home. Twelve stalwart men consumed a keg of beer . . . the best, by the way, in Union City. The game of "Captain Bump," kept the boys busy in the carefree libations.

Brothers Roveto and Gozzi have the fancy diving situation well under control. Some last minute news informs me that Brother Wm. Roveto was elected captain of the Columbia varsity swimming team. This is the first time in about twenty years that a diver was elected captain at Columbia. . . . Splendid! and congratulations, Bill. Brother Pecora has been playing varsity water polo and he is expected to lead the way next year. BETA places much confidence in its softball team. Its hopes are high in winning both the campus fraternity tournament and the *Alpha Phi Delta* Metropolitan League trophy.

The inseparables, as they are known, Brothers Verni and De Stefano, have assumed the rôle of BETA "Jesters." Apparently comedians are born not made, for I am told they are "naturals" at comedy. Hor-

ace Greeley would have said, if he were alive today, "Go into radio, my boys." . . . Brother Catania's devotion and hard work has marked him out as one of the most valuable men in the chapter. Brother Franceschini surprised the boys by following the narrow path . . . he's become engaged. We are still waiting for that mustache, Brother Maggipinto is attempting to raise.

Still with all this fun, BETA chapter is always striving to raise the standards of the Fraternity higher. With a steady rise, BETA gradually placed itself among the leading ones on the Columbia campus. They have won the respect and admiration of the Dean through their scholastic work.

THETA CHAPTER

(New York University, University Heights)

With torch held high, the THETA men come to another milestone in their endeavors to reach the desired position as the best fraternity on the campus. The THETA men are taking firm and progressive steps toward establishing themselves on the campus as an example of the ideals and power contained in a model fraternity. We can be justly proud of the achievements of this chapter when we consider the difficulties experienced.

Starting out in September with a mere handful of brothers and handicapped by lack of funds sufficient to carry a house, we find them, not throwing their hands up in defeat, but planning a way in which to hold their position on the campus. They finally decided on a beautiful apartment near the campus and promptly using it as their main quarters made plans and budgets for the ensuing year. The main idea of this move was to lower the budget and by so doing start a fund which could be used in the 1936-37 semester towards the acquiring of a house unattended by financial worries. The budgets were prepared by the Financial Committee and Elio Caprioglio, the Quaestor, and have been carefully followed. The plan has worked to perfection.

THETA chapter has been making a name for itself in nearly all the fields of endeavor on the campus. Edward Da Parma, the Consul, is the vice-president of the senior class. Brother La Barbera is the chairman of the Sophomore Prom. In the field of social activity Brothers Postiglione and Pinella have made a name for themselves as socialites on the campus. As a new member of *Alpha Phi Delta*, Brother Coscia has attained distinction in scholarship. One of the greatest attainments of the Fraternity lies in the field of athletics. THETA chapter won the Inter-Fraternity Basketball Competition and with little difficulty downed the larger fraternities of the University. The two outstanding high-scorers were Rotelli and Da Parma. In track, we have the well known stars Finiello and Marzullo. Brother De Rosa is active in fencing, orchestra, and glee club. With the financial welfare of the chapter under the watchful eye of Brother De Felice, THETA seems to have left no field of accomplishment untouched. A library has recently been installed in the house, and the Brothers are finding wide use for the large collection of books donated by the Brothers themselves. The librarian is Brother De Rosa. A party held recently at the apartment proved to be such a success that plans have been laid for another such affair.

The THETA chapter Alumni Club is in close contact with the undergraduate body which is benefiting greatly by the wider experience of the graduates.

"Stop, Look, and Listen," everybody, for around the bend you will see THETA coming up the hill full of steam.

BY ALPHONSE POSTIGLIONE

THETA BETA CHAPTER

(*New York University, Washington Square*)

At a recent written examination given by THETA BETA to its pledgees, one question was "What is a Pledgee's attitude towards a given task?" One answer given, which should win a prize . . . but won a good paddling instead was, "It must be done . . . it can be done, and by Jove I'll do it."

And thus . . . with such determination shown THETA BETA initiated on February 16, six men. They are: Louis Di Prima, Salva-

tore F. Russo, Frank Cavallaro, Karl Caruso, Louis Troisi and Albert Da Pozzo.

THETA BETA has been very active this semester in the way of athletics. They have completed a successful basketball tournament against other fraternities at New York University. Brother Frank Cantarella should be congratulated upon his splendid coaching and leadership of the chapter basketball team. The players should also be given due credit. Everyone has taken an active interest also in the Metropolitan *Alpha Phi Delta* Baseball League. THETA BETA has its eyes on the trophy. The Metropolitan Committee appointed Brother Cantarella chairman of the League.

The boys have been having some good old-fashioned parties at their house on 13th Street. Clean wholesome fun and dance is their motto . . . although with an occasional elbow bending on the bar below. The boys eat more of the pretzels and popcorn than the outside patrons combined. No wonder the last batch of pretzels were salty.

THETA BETA has been taking an active interest in the Interfraternity Council at the University. It has participated in the chess, tennis, and handball tournament that the Council sponsored. Brother Joseph Fontanetta represented the chapter at the Interfraternity Council meetings.

In May 2, THETA BETA and the *Phi Phi Alpha* sorority held jointly a supper dance at the Rosoff's Restaurant, in the heart of Times Square. The Oxford Room was gayly decorated and the spirit was an indication that the affair was a success . . . or rather the "Fraters and the Sorors" certainly hit it off splendidly.

At last the trophy won by the THETA BETA track team last year has the names of the winners engraved upon it. May we mention in passing, they were: Brothers Dom. (Mimi) Madri, James Gallo, Frank Cantarella, and Edward Pagani. The boys are out to win another this year . . . so as N.Y.U. would say, "Let's go."

ETA CHAPTER

(*City College of the City of New York*)

This year's officers of ETA chapter are: consul, George Santangelo; pro-consul, Marc Nocerino; quaestor, Ubaldo Costigliolo; tribune, Andrew Pelosi.

In February seven new brothers were taken into ETA chapter. They are: Donato Bracco, Salvatore Brucato, Lawrence Cannistraci, Angelo Lofaro, Frank Marzullo, John Montaldo, Vincent Paciello.

The annual spring dance was held in April at the Casino-in-the-Air, Hotel Montclair, New York City, in conjunction with BETA chapter.

ETA chapter is vitally interested in the Metropolitan Softball Tournament and it feels sure that its team will give a good account of itself, as it has emerged victorious in the two games thus far played.

BY UBALDO COSTIGLIOLO

BETA BETA

(*Manhattan College*)

Today with twenty-five active members, BETA BETA chapter has risen to a height of prominence and respectability on the Manhattan College campus. The Deans and Faculty cooperate with the chapter in every way. The QUADRANGLE always contains a story of the chapter activities.

The moving spirit behind BETA BETA's change is due entirely to the consul, Salvatore Catania. His untiring efforts and the unified cooperation of the officers and members, have made BETA BETA outstanding on the campus.

The alumni have been attracted back into the fold by the sudden rise and they have been very active in aiding the chapter. The chapter has been so aided by Charles W. Caputo, that the boys have voted him a key as a token of regard for him. An alumni group is being formed at BETA BETA with the purpose of being a helpmate to the chapter.

On March 13, BETA BETA held its first formal initiation and the initiation was followed by a banquet tendered to the new brothers at the Lauritano Restaurant. The new men are Carl Martinez, Michael Falcone, Ray Lucia, Carmen Cappazola, Frank Feudale, James Caruso, Thomas Morrera, and James Cavalieri. Ralph Puca has transferred from DELTA to BETA BETA, in order to complete his engineering course at Manhattan College. The chapter welcomed him and aided him in every way.

Out of an active membership of twenty-five, BETA BETA has eleven honor men on the

college honor list. These men are to be given sincere congratulations for they are: Brothers Marinello, Lanzillo, Falcone, Lombardi, Martinez, Cundari, Perugia, Zodda, Feudale, Manganiello, and Cavalieri. It is through such outstanding scholastic qualities of these men that BETA BETA has been well received on the campus.

Vincent Marinello spoke before the International Relations Society. The Italo-Ethiopian situation was discussed. Brother Marinello entitled his speech "The Justification of Italy's Policy in Ethiopia."

Charles Pessoni, an alumnus of BETA BETA, recently won the K of C track championship. His kid brother, Al Pessoni (6 ft. 6 in.) is rapidly developing into an I C 4A track man.

The correspondent from BETA BETA has written that "You can't put the spirit, interests, pleasures, down on paper, you must just imagine what advantages we BETA BETA members have enjoyed."

Keep up the good work and spirit, and the other chapters of the fraternity will do the imagining.

DELTA CHAPTER

(*Brooklyn Polytech.*)

DELTA chapter is managing to hold its head above water. Graduation seems to have dwindled the active membership to a few men. They haven't given up as yet. It has been noticed that these few men are very active in the Metropolitan area.

DELTA has a technique of holding its alumni together. The boys have had several successful reunions with the alumni.

The feature affair which DELTA sponsored for the year was a gala barn dance held on May 16, at the Crystal Palace. Farm life was at its height that night. The embryo engineers of DELTA were gentlemen farmers for one evening. It was a splendid way to end a school term before settling down to final exams.

DELTA has made a good showing in the Metropolitan Chapters Baseball League.

Four new men were initiated into DELTA, they are: Anthony Caiafa, Angelo Bruno, Thomas Abate, and Charles Verga.

This summer sees many of the DELTA boys down at Brother Peter Cirillo's place on Long Island, where there is plenty to eat, drink, and play. Well, boys, there's a hint

for you . . . so follow it through. Pete claims the more the merrier.

BETA ETA

(*Brooklyn College, Brooklyn, N.Y.*)

BETA ETA, the youngest of the great family that is *Alpha Phi Delta*, continues merrily on its way in its expanding activities and increasing friendships. The officers are Paul Bisciotti, consul; Frank Carollo, pro-consul; Leo Galli, quaestor; Anthony Pasquariello, tribune. This administration of four good men and true, backed by an organization of 30 undergraduates and graduates, intends to make things hum.

The first important function of the semester was the initiation of Edmund Poltronieri, Michael Palma, Victor Risica, Paul Cotellessa, and Anthony Galgano. (*Another Tony—that makes 10 now!*)

On the campus the lads from BETA ETA have made and are making themselves heard. At the February commencement exercises of Brooklyn College, Andrew Barresi and Andrew Terzuoli were both rewarded with gold keys for their services to the Student Council. Brother Barresi also received a Speech Award, thus making him the only graduate to receive more than one award.

Then, the male lead in the Spring Varsity show was copped by Anthony Pasquariello. The Italian Club annual production also includes two of our boys in its cast, namely Frank Carollo and Anthony Pasquariello. The above two are also president and assistant treasurer, respectively, of the Italian Club.

This new Thespian urge which has suddenly gripped the boys of BETA ETA has resulted in many heated discussions concerning the various theories of acting. Friday night finds a good many of us analyzing and debating the different modes of "expression," "feeling," "naturalness," and so on. Some of our more cynical brethren are already inquiring as to our taste in ripe tomatoes, soft bananas, and other choice vegetables.

Among our graduates, we find Angelo De Luca, Biaggio Rotolo, and William Giuliano

—all doing graduate work in Italian at Columbia University. Also at Columbia is Michael Bianchi, who is set on becoming a famous optometrist one of these days. Angelo De Luca, having won the Garibaldi Prize of \$400, is now pursuing further courses at the Casa Italiana, and is president of the Graduate Society of Italian Studies of Columbia University. Anthony Catinello, teacher-in-training in Physics, has the male lead in the one-act play to be presented by the Italian Graduate Society of Brooklyn College. This latter group, organized and started by a number of BETA ETA graduates, who, along with countless others, did not wish to sever their relations with their alma mater, was piloted in its first year by Brother De Luca as president. Other BETA ETA graduates are interspersed among the membership and on the Executive Board of the Society. Another of our graduates, Salvatore Curione has been recently called to Washington for Civil Service work.

Socially, BETA ETA boys reached the heights of their social activity with their first Hotel Dance, on May 9, at the Hotel Taft. The effort was well compensated by the unusual success, both socially and financially. Our pledge smoker, held on the night of March 21, proved a very enjoyable affair and brought to our notice much new and promising pledge material. We are all looking forward to the New York Convention, which will be our first Convention for a good many of us.

The Metropolitan Baseball Tournament being conducted among the seven chapters of the Metropolitan area has resulted in a revival of interest in the national pastime. A team was quickly organized and Edmond Picarello was chosen captain. Practice sessions were held and by working hard, the team was enabled to trounce DELTA by a score of 14-4, in its first game. As this goes to press, we learn that we have also beaten THETA by 27-3. Here's a warning to our metropolitan fraters: We're out for that cup, and we mean to get it!

So long, and see you all at the Convention in September!

BY FRANK CAROLLO

GAMMA CHAPTER

(Yale University)

Under the guidance of our newly appointed faculty adviser, Professor Angelo Lipari, head of the Department of Italian at Yale, and with the full-hearted cooperation of a group of thirteen active members, one of the smoothest moving groups that GAMMA has ever developed terminated in June a year of greatest and most successful activity. Though the loss of Brothers Longo and Castiglione through graduation will be irreparable, the chapter, whose roster has reached seventeen by the addition of Brothers Terenzio, Montesi, Palmieri, and Ottaviano, is looking forward to an even more successful season next year.

In sports we have not only been highly successful in collegiate and fraternal competitions but also in the keenest of rivalries in the environs of New Haven. For example, in two sports that have only recently aroused the interest of Yale men, badminton and table-tennis, our exponents have distinguished themselves in this locality. Lenny Veneruso played to and through the semi-finals of the state table-tennis doubles tournament. Ray DeLucia, amateur badminton champion of New Haven, is by far the best player of this sport in this vicinity. Interest in bowling, warmed to the point of ebullition by the promise of the awarding of attractive bowling pins with appropriate inscriptions, is keen. Our team, having weekly competitions with many practice periods interposed, has included in its number Joe Longo, who captains the Branford College intra-mural bowling team, and Larry Cianciolo, who captains that of Berkley College.

To add to the enjoyment of the group a full yet well-balanced program of social activities has been maintained. The annual formal dance was recently held at the popular Waverly Inn in Cheshire and it proved to be a highly successful means of bringing together our local alumni brothers. During the school year, GAMMA held a number of Saturday night parties, the annual spring dance, a farewell party to the graduating members and an informal outing at one of the resorts near New Haven. The annual semi-formal spring dance was held on May 9, at Woodmont Lodge. Peter Terenzio, chairman, and his capable committee, pre-

pared for a memorable evening. Incidentally, shortly after the dance Brother Terenzio left for Panama on one of the U. S. Navy's destroyers as part of his training in the Naval unit at Yale.

We find time, unbelievable as it may seem, to study, too. In fact, the majority of the group not only "get by" but in truth attain high scholastic standing. Prominent among these is Paul Pasquarella, elected to *Phi Beta Kappa*, who has made in his past three years here a record so distinguished that his work in all subjects is best described as being just a shade below perfect. It is rumored by those who know that Brother Pasquarella's average is the highest ever attained at Yale. Other men who are also of high scholastic rank are Brothers Paparella, Castiglione, and Cipriano, who are on the Dean's list. In the undergraduate school scholarships have been awarded to Brothers Castiglione, Pasquarella, Montesi, and Cianciolo; Brother Milici of the Yale School of Fine Arts has received a prize in the Prix de Rome competition for his good work in oils.

Our weekly publication the GAMMA GAMBOLS, under the supervision of James Mormile, alumnus, one of the greatest men of letters produced by GAMMA, is still holding the high literary level attained after years of work and experimentation. The publication is no longer written up by one member but is issued now by a different brother every week. After the meeting, debates and interesting lectures are given by capable men. This practice, GAMMA believes, is its most effective tool in bringing about the metamorphosis of the new members from reticent, embryonic fellows into men of culture and refinement.

In conclusion, it might be mentioned that GAMMA at present has more than it could hope for. The type of student at Yale cannot be praised too highly. We are also fortunate in having one of the finest lounges in the university for our fraternity meetings. Last, but foremost, stands the group, a group of brothers that enjoy working together, studying together and playing together; a group of fellows of sufficient intelligence and initiative to know what to search for in life and how to find it. Yes, GAMMA shall go on and on! We, its members, know it will.

BY SALVATORE CARRANO

Western Winds

By JOSEPH M. GAMBATESE

THE high-spot of the year in the Sixth (Ohio-Michigan) District was to be the annual district convention at Cleveland the week-end of April 25. A business meeting was planned for Sunday morning, following a ball at Hotel Cleveland the night before.

Handling the arrangements were Grand Pro-Consul Victor S. Leanza and Dr. Charles J. Dinardo of the alumni and Undergraduates Frank Di Marinis, Angelo Gagliardo, and Michael Manco. Delegates were expected from XI (Ohio State), BETA ZETA (Ohio U.), the Youngstown Alumni Club, and, of course, from KAPPA (Western Reserve-Case) and the Cleveland Alumni Club, hosts.

BETA ZETA ADOPTS SLOGAN

"Watch Us Grow and Go" is the way Mario P. Rocco, BETA ZETA historian, headlines his notes to your columnist. And he has reasons.

Athletically, the *Alpha Phi Delta* boys are tops on the Ohio University campus. They hold first place in the intramural standings and are strongly represented on the varsity aggregations. Their intramural efforts reached a peak when the boys ran off with the indoor track meet. On the varsity baseball diamond this spring will be found Brothers Pavia, Jurkovic, and Siembieda and two pledges, Burazio and Cuccalelli. In the moleskins last fall were Brothers DeStefano, Donofrio, Jurkovic, Caruso, and Rich, and a pledge, Guerra.

In extra-curricular activities, DeStefano, consul of the chapter, is president of the Blue Key and member of the "J" Club, Torch, Junior Prom Committee, Campus Selection Board, in addition to his athletic exploits. Brother Rocco and Pledge DeCapite have the honor of being charter members of the Ohio U. chapter of PHI ETA SIGMA, national freshman honorary and sophomore scholastic society, recently established on the campus. Brother Mernone was a member of the Junior Prom committee which brought Duke Ellington's suave band to the campus affair.

Paul DeSio has been granted a fellowship

in Romance Languages at the university. Don Capilongo is studying medicine at the University of Naples.

The spring formal is set for May 9 at the Athens Country Club.

KAPPA CHAPTER

There are two inevitable occurrences on the Western Reserve campus every spring—the snow melts and *Alpha Phi Delta* wins the intramural boxing championship. For something like the eighth straight year the boys have worn the pugilistic crown.

Title winners were Carmine Dente at 125 pounds and Phil Ragazzo, heavyweight. Finalists were Tony Gentile, 115; Joe Amendalora, 135; and Anthony De Tesco, 145.

New brothers initiated in February are Amendalora, Frank Piraino, Ralph Musengo, Art Ciricillo, and Florindo D'Amato.

The best Founders' Day affair in the fourteen-year-old history of KAPPA chapter was held at the house March 30. Dr. Peter E. Russo led group singing, which included some Italian drinking songs. Instrumental music—and very fine, at that—was furnished by Guitarist Dr. Russo, Clarinetist Dr. Charles Angelotta, Violinist Pat Madalena, and Trumpeter Pat Ciricillo. There were vocal solos by John Iacobucci and the two Tonys, Boscoe, and Cannarozzi. Art Mandolia danced. John DeAgro and Al Iacifano backed the roulette wheel. Joe Larca M.C.'d.

Domenic DeTirro of Case was elected consul to succeed Vic Balmenti, who left school in mid-year because of his health.

XI CHAPTER

(Ohio State University)

As almost all institutions, XI chapter has been waging war against that domestic foe known as depression. The last several years have seen the chapter with anxiety and uncertainty and even despair, but despite these

obstacles the foresight and untiring efforts of the active brothers resulted in a turning of the tide.

The past year has witnessed the removal of a greater portion of these obstacles, and a substitution of high hopes. We definitely believe the chapter is on the up grade again. There is every reason to believe great strides of progress will be made by our chapter and also by the national organization.

With half of the active body, a score and two in number, living in the house and a highly selective pledge group; our house is worthy of the title "XI Mansion." This is the result of the efficiency of our officers and our present system of management. Brothers Renda, consul; Strollo, quaestor; Salvatore, pro-consul; Molli, tribune; and Pietrafese, steward, comprise a well-rounded group of officers.

We are faced with the same problems that confront all the chapters, namely: finances, scholastics, and athletics. Financially through the initiation of new brothers and efficient management of the house and kitchen we hope to soon achieve a comfortable financial security. It has been our policy to stress above all else scholastics. We feel that this is the greatest problem, as unless we maintain a high scholastic standard we cannot hope to gain the confidence of future Italian students. We are proud to report that collectively and individually we have maintained a high scholastic position on the Ohio State campus. By this condition we are able to refute the constant argument that a

fraternity is detrimental to the intellectual efforts of a new student. Notwithstanding the stress on scholastics we have been able to maintain a fair position athletically. Our star miler Brother Renda who, as a member of last year's varsity team, represented Ohio State at the Drake Relays, and last June at the California meets, is not out for the team, owing to his enrollment in first year law. We have been represented in all intramural events and have reached the finals in many of these.

And so XI marches on facing the future with confidence. Our one earnest hope is that every sister chapter has a similar condition to report. So with a profound anxiety of renewing old acquaintances and making new ones we are looking forward to the oncoming national convention in New York City in September.

BY H. ARMOGIDA

Frank J. Filippone forwards a few lines on what some of the Columbus, Ohio, boys are doing.

Anthony D'Aurora has been appointed a traveling auditor for the state. Peter Iaderosa and William Simone are dental frosh. Domenic Renda and Sam Gaylord are absorbing the mysteries of *nisi prius*. Graduating are Germinal Strollo in civil engineering, Domenic Montmore in social sciences, and Pat Molli in pharmacy.

The boys enjoyed a Valentine's Day hop "thrown" by the pledge group.

F. J. FILIPPONE

Pittsburgh Smoke

By DR. JOSEPH BISCEGLIA

THE Alumni Club of Pittsburgh was hard hit by the flood which swept the city this spring. Most of the brothers couldn't get to their offices for about a week. Conditions during the flood here were terrible. Little financial loss, however, was sustained by any of the brothers. At present everything is back to normal and we hope that the Club will come in a body to the convention in New York City.

The Woman's Auxiliary had a bridge luncheon last month. Next month they intend to have a theater party. The new officers for this year are Mrs. J. Bisceglia, president; Mrs. I. Catanzaro, vice-president; Mrs. R. Ignelzi, treasurer; Mrs. R. Cancelmi, secretary.

The Alumni Club held a benefit cabaret dance at the Plaza on April 26, 1936. The benefit is for a house fund for the Pittsburgh undergraduate chapters. About 300 persons attended.

RHO CHAPTER

Alpha Phi Delta (RHO) since the school year of 1935-36 has been coöperating with PSI chapter.

The school year was started by having a dance at the Schenley Hotel, Pittsburgh. A nice crowd attended, including alumni, brothers, and pledges. The affair was not run for profit but for a reunion of all RHO chapter members.

Just at about this time PSI chapter held their initiation, November 1935, and RHO coöperated by attending in a body and assisting in making the initiation a success.

Rushing season came in November and RHO chapter pledged three boys. The boys (if they behave) will be initiated in April.

Throughout the entire school year RHO chapter has been having weekly meetings. This has enabled them to coöperate and accomplish many things.

The chapter participated in the Interfraternity Basketball League held at Tech and although the five did not make out so well, the spirit of the fraternity was very high. With spring coming around the boys hope

to take the cup in mushball. RHO chapter finished second in the league last year. Although the team has suffered a little from graduation, the incoming pledges are going to bolster up the team.

On April 4 the pledges held a pledge dance and a good crowd was present. As usual the dance was merely for a reunion and not to make money. The pledges have shown good fraternity spirit and we are very proud of them—one of the best groups of boys RHO chapter has ever had.

Election of officers was held on Palm Sunday and initiation of pledges on April 17. They were sent through under the new ritual.

RHO chapter is confident they will take the cup at the national convention. They hope to have a good representation so you other chapters look to your laurels for RHO chapter is out to win.

By JOE GUMMA

PSI CHAPTER

(*Duquesne University*)

Although the June graduation took many boys from the ranks of PSI chapter, the actives of 1935-36 are firm in their determination and eagerness to bring their social, athletic, and scholastic attainments to the caliber that established the white and purple, in the past, as one of the top fraternities on the Duquesne campus.

In spite of the handicap of a house the administration composed of Joseph Profeta, consul; Edward Adams, pro-consul; Louis Di Tommaso, tribune; Charles Adonizio, quaestor, started off with a bang.

A well-attended smoker held on October 25 at the K. of C. house in honor of their pledges turned out very successfully. Not only were many alumni brothers present, including Grand Pro-Consul Dr. Bisceglia, but we were honored also by representatives of the faculty and of other fraternities.

A couple of weeks later, however, the pledges felt the normal rhythm of their life disturbed by a distasteful concoction of unforgettable experiences. Under the awe of

an impressive ceremony Anthony Nard, Michael Phillips, Joseph Parovati, and Jack Santalucia took the oath to be brothers for life.

As the Christmas holidays drew near the $\Psi\Sigma$ boys planned an informal gathering in a night club on New Year's Eve in order to usher in 1936 in a spirit of sincere and cooperative brotherhood. Due to unforeseen circumstances this affair had to be postponed but, when it was held a month later, it lost none of the significance that the importance of the date was to instill in it.

The second semester found the boys seriously considering means by which to overcome the handicap of a house. They were conscious of a void in their fraternal relations. "Eureka," exclaimed one of the brothers at a meeting and everybody gave an enthusiastic consent to his proposition.

Now their meetings are held in the evening at the Fort Pitt Hotel every other Friday. They are usually short and adjournment gives impetus to a social hour that follows. Games of various types are started, sandwiches and beverages are passed around and the music fills the air with merriment.

Grand Pro-Consul Dr. Bisceglia and Faculty Adviser Dr. Monticone are regular attendants of these evening meetings. Friends of *Alpha Phi Delta* are invited, particularly girl friends.

HUNGARIAN ROOM IN CATHEDRAL OF LEARNING, UNIVERSITY OF PITTSBURGH

Their Formal May Annual Dance held on May 8 and a second semester initiation completed $\Psi\Sigma$'s social calendar of the year. These affairs rounded up a very active year socially. By the way, they wish to acknowledge the appreciated support that RHO chapter (Tech) gives them and which they reciprocate.

PENNSYLVANIA DUTCH ROOM IN CATHEDRAL OF LEARNING, UNIVERSITY OF PITTSBURGH

The purple and white colors are well represented in the publication offices of Duquesne. Vic Monaco is a feature writer of the weekly Newspaper *DUQUESNE DUKE* and Louis Di Tommaso is assistant editor and frequent contributor to the *DUQUESNE MONTHLY*, one of the leading Catholic collegiate magazines in the country. Aside from his journalistic prominence Monaco enjoys a tremendous popularity on the campus. Why? Well, he is the founder of the Duquesne Date Bureau and a very tactful matchmaker. But poor Vic; he is helpless when it comes to making a match for himself, probably because he is only 5 feet tall.

Musical talent seems to be abundant in $\Psi\Sigma$. Both Anthony Nard and Jack Santalucia have orchestras of their own and they have already played in various Pittsburgh collegiate festivities.

The boys are now getting into shape for the coming Mushball Tournament. If $\Psi\Sigma$ rivals want to get an idea of the accuracy and potency of their hitting let them ask their respectable pledges.

By LOUIS DI TOMMASO

ALUMNI BROTHERS

Obey That Impulse!

We are sending you this magazine because we want you to know what is going on in *Alpha Phi Delta*.

At the same time KLEOS needs your support. The undergraduates are paying for theirs. Surely you, as an alumnus, will want to pay for your own; one dollar, which just about covers the cost. If you will send us one dollar for a one-year subscription, we will insert your name in the Business Directory, indicating the Alumni supporting the magazine. MAIL IN YOUR BUSINESS CARD WITH ONE DOLLAR. Obey that impulse!

As you probably know, the Directory, with 50 per cent more names than the last one, is being distributed.

The price of the Directory, together with all future supplements issued until a new Directory is printed, is \$1.00 per copy.

Please fill in the space below and mail it now before you forget. Thank you.

THE BUSINESS MANAGER

FRANK BRESCIA, Business Manager
32 Arden Street, New York

Dear Brother Brescia:

Enclosed is one dollar to pay for:
....one year's subscription to the KLEOS.
....one directory.

Please check one. Or if you wish both:

Enclosed is two dollars for one year's subscription to the KLEOS and one directory.

IOTA CHAPTER (Union College)

IOTA has made remarkable progress this year, scholastically, athletically, and socially. In fact, so great has been her progress that IOTA now enjoys a new morale.

All the fellows are enthusiastic about intramural sports and because of this *Alpha Phi Delta* at Union College is considered one of the best all-round athletic fraternities on the campus. Under the guiding hand of her athletic director, James Marotta, IOTA is faring well in the new and very extensive program of intramural sports. Brother Marotta sees to it personally that every brother in the chapter engages in at least two sports. Most of the fellows participate in four or five sports. It is evident, then, that all the boys are more or less versatile in their own small way. *Alpha Phi Delta* finished second in the basketball league and expects to do better than that in softball. There is keen competition for the tennis championship of the fraternity between Barbagelata, Marsella, and Marra. These boys are making things hot for the seeded players on the varsity. None of the tennis players are out for varsity tennis because all have positions in major sports.

IOTA's social season has been rather successful so the necessity arose for the appointment of co-chairmen of the social committee. The alumni have contributed in no small way to the success of the dances, smokes, and house parties. Right now the thoughts of the fraternity are centered on the big annual formal dinner-dance in June. A senior banquet, another annual affair given in honor of the brothers who leave our ranks, is also set for June.

If there were any scholastic honor higher than SIGMA XI, it is doubtful whether it could elude Michael Fiore, this year's consul. He has maintained a first grade average since he entered Union College. He was recently elected to SIGMA XI and given a stage appointment. He is also a leader on the campus, being a member of the Student Council, President of the American Society of Civil Engineers, varsity baseball, and Class Day leader.

Others who are high in scholarship are D.

Mele, F. Mele, J. Marotta, A. Marotta, and E. Cammarota.

Five new brothers were formally inducted into the fraternity. These were literally the "cream of the crop" of pledgees, for there were twelve of them. The new initiates are F. Pepito, A. Marchacchi, Frank Mele, M. Cappiello, and R. De Gesero.

The chapter officers this year are: consul, Michael Fiore; pro-consul, Angelo Marotta; quaestor, John Marsella; tribune, Armand Cammarota.

We haven't had a chance to play host to many brothers from other chapters this year, so we take this opportunity to offer you the hospitality of IOTA if you should ever visit Schenectady, N.Y. Schenectady is quite a town even though they roll up the sidewalks and go to bed at 9 o'clock. And Union College is a great place because there is a chapter of *Alpha Phi Delta* established there. Pay us a visit sometime.

BY HARRY MARRA

OMEGA CHAPTER (University of Rochester)

Right smack in the beginning of this article we wish to say that OMEGA certainly has blazed a bang-up trail this year—or to be more bromidic "we came through with flying colors." But you do not have to take our word for it. Let's look at the record.

If scholarship be considered one of the prime criteria for judging a fraternity, then notice that OMEGA of *Alpha Phi Delta* ranked second according to a list prepared by the dean which included more than 25 other organizations on the campus. Furthermore, we just missed being first by a few tenths of a point. In view of the fact that the University of Rochester maintains one of the highest scholastic standards in the country, we think this an enviable record.

If active participation in intramural athletics be considered a requisite for a good fraternity, then OMEGA surely need not blush for its accomplishments in this field. Inasmuch as there were only nine of us this year, it would seem that we might be seriously handicapped by a lack of material for our basketball, handball, volleyball, and baseball

teams. But we were not. Indeed, we made a much better showing than most of the fraternities that have a much larger membership than we.

We finished third in basketball and volleyball; while Brothers Mira and Iati won the handball championship after eliminating the *Psi U's* in a hot fray.

But that's not the half of it. Brothers Mira and Spagnolo made the Varsity soccer team. In fact, Mira was such an outstanding player that some of the local papers mentioned him as a worthy candidate for the All-American team. Brother Spagnolo's work has been so brilliant at second base thus far that he will no doubt cinch that berth on the Varsity baseball team.

Also OMEGA has some would-be Thespians "treading the boards" in college dramatics, and one of the brothers has even won himself an assistant editorship on the college paper, *THE CAMPUS*.

If social activities be considered an important basis for evaluating a fraternity, then OMEGA can boast of a well-rounded and varied list of social functions which were planned with the purpose of broadening outside interests and increasing social poise.

Early in the year we held what we customarily call a "Scholarship Affair." The good Doctor Ottaviano was the first speaker. He enlightened us on the National Interfraternity Conference in which he took part. Brother Cardarelli, another able alumnus, spoke on "Social Welfare." On that evening, too, the alumni presented undergraduate

brother Cucci with the scholarship cup for having made the most improvement during his sophomore year.

Our "Parents Affairs" have been very encouraging. The parents turn out 100 per cent and they have a fine time. Fortunately one of the brothers has been able to engage a small orchestra with a Tarantella complex which furnishes the music for these occasions. Usually the music is supplemented with light lunches and drinks. This year we have held three of these affairs.

The monthly smokers have proven very popular with alumni brothers. Our plan has been to invite a member of the faculty to these smokers to speak and lead the discussions.

Of course, the greater portion of our social program consists of informal week-end parties interspersed with semi-formal and formal dances. Our formal initiation dance was a great success. Brothers Gliottone and Pettito were the stalwart freshmen whom we initiated. Brother Iacovino, an attorney from Auburn, gave us a most inspiring message at the formal stag dinner.

Now a word about the alumni of the Genesee Valley (God bless 'em). They have had a paternalistic eye on us since the beginning of the year. They have actively supported all of our affairs and have always been ready to give assistance when needed. We thank them sincerely.

This is our record—and are we proud?

BY JOSEPH L. CALIRI

To the

CONVENTION!

Sept. 3, 4, 5, 1936

ALUMNI CHIT CHAT

*"Thy friends thou hast and their adoption tried;
Grapple them to thy soul with hoops of steel."*

—SHAKESPEARE

Felix Viola, BETA, Columbia University, civil engineer, is in charge of a sewer project of the PWA with a force of 4000 workers under his direction.

Thomas J. La Rocca, LAMBDA, University of Pennsylvania, and Frank Pellegrini, EPSILON, University of Buffalo, were among the fifty-two Doctors of Dental Surgery of Italian descent who received that degree in 1935.

Gaston Babini, ETA, City College of New York, is teaching at Teachers College, Columbia University, where he is also working for the Ph.D. degree.

Maurice Montaperto, ETA, is enrolled in the army of benedicts. The former Miss Marie La Bruzzo, is responsible for the enrolment. He is a teacher of music.

Eugene Cardone is another ETA man who has joined the ranks. The credit goes to the former Miss Louise Cuomo. He does serum research for the New York City Department of Health.

Louis Rossetto, ETA, was the holder of a scholarship in the Columbia School of Mines. He is a member of *Tau Beta Pi*, Honorary Engineering Fraternity, and also of the "Dumb-Bells," a local honorary society, and of *Sigma Xi*, National Honorary Science Fraternity.

A brother who signs himself "Pat" requests us, with some decisiveness, to dissipate the possibly prevalent idea that his name is Patrick. He says that his name is Pasquale, "a good old Italian handle."

We have also often wondered how the name Arsenio ever became transformed into George, and why so many bearing the name Vincenzo call themselves Jim! And by the way, we know a couple of Matteos who are known as Mike.

Dr. John Bart Lauricella, BETA, is the medical director of the New York State Insurance Fund. Brother Lauricella was chief surgeon of the clinic of the United States Fidelity and Guaranty Company from 1928 to 1931, and since that time has been consulting surgeon for that company.

Henry A. De Phillips, ETA, The City College, N.Y., is President of the "Coating Materials Laboratories, Inc.," with an immense plant at Belleville, N.J.

Frank Principe, MU, Cornell University, is his father's right hand man in the extensive building operations undertaken by him in parts of Brooklyn and Long Island, N.Y.

THE ALPHA PHI DELTA CONVENTION, SEPTEMBER 3, 4, 5, AT THE HOTEL ASTOR, BROADWAY AT 45TH STREET, NEW YORK CITY. ALUMNI BROTHERS, THIS WAY!

Leonard Guarnera, THETA, New York University, (Heights) is now teaching at Public School 70 in Queens, New York City. He is Treasurer of the Brooklyn Alumni Club.

Frank Zumbo, BETA, Columbia University, is attending the School of Architecture at Columbia.

Murray M. Longo, LAMBDA, University of Pennsylvania, is an instructor at the Boro Hall Academy in Brooklyn. He is the Vice-President of the Brooklyn Alumni Club.

Gil Tomaselli, BETA ZETA, Ohio University, is employed as a surveyor by the W.P.A. in New York.

Two more baby *Alpha Phi Deltas* . . . Bob Genovese of PI chapter is the papa of

a baby boy, likewise . . . Joe Genovese of THETA BETA . . . a boy nevertheless . . . Future Prospects?

PASSIVES BECOME ACTIVES BY ATTENDING THE GREATER ALPHA PHI DELTA CONVENTION IN GREATER NEW YORK, HOTEL ASTOR, SEPTEMBER 3, 4, 5, 1936.

Brother Joseph Spinnato has returned from Washington, D.C., where he had given his legal talent to the U. S. Government for a while.

Brother John Gentilella, THETA BETA, has returned to New London, Conn., to enter the liquor business. . . . You should see that big bear coat of his . . . good enough to hide bottles in it.

HONEYMOON AND POST-HONEYMOON TRIPS FOR GREATER NEW YORK AT THE GREATER ALPHA PHI DELTA CONVENTION, HOTEL ASTOR, BROADWAY AT 45TH STREET, SEPTEMBER 3, 4, 5.

Alpha Phi Deltas of Cleveland were instrumental in founding an Italian Welfare Council there recently. The organization is composed of representatives of practically all Italian organizations interested in the betterment of the Italian people. Dr. Peter E. Russo is president. Victor S. Leanza is handling a campaign for funds. Several other Alpha Phi Deltas are active in the group.

Pat Ciricillo, KAPPA, Western Reserve, trumpet player who has tooted for many of the leading bands, was singly honored in the Cleveland Press recently. The entire radio column was devoted to his analysis of how the music does not go

'round and around when you blow in here. It vibrates crosswise, he said in effect.

Five KAPPA alumni have become fathers for the first time. Future Alpha Phi Deltas were delivered to Bill DeCapua at Kent, Ohio; Anthony Palmieri at St. Louis and Joe Gambatese at Cleveland. Girls went to Dr. Santino Lerro, assigned to Fort Knox, Ky., and Leo Russo.

We are informed that Fred A. Ferlisi, PHI, University of Alabama, is the only *Alpha Phi Delta* in Florida, which fact makes him feel "kinder" lonesome. He is located in America's Mother City, St. Augustine, and though engaged in the manufacture of ice, he will extend, so he assures us, the warmest of welcomes to any A Phi Dees who finding themselves in that vicinity may pay him a visit.

Louis Mattiello, DELTA, Brooklyn (N.Y.) Polytechnic Institute, is an expert in paint—no, real paint that you paint houses with—and varnishes, and has received the Ph.D. degree from Columbia University's School of Chemical Engineering. He is a charter member of the Brooklyn Poly chapter of *Phi Lambda Upsilon*, Honorary Chemistry Society, and also a member of *Sigma Xi*.

THE ALPHA PHI DELTA CONVENTION, SEPTEMBER 3, 4, 5, AT THE HOTEL ASTOR, BROADWAY AT 45TH STREET, NEW YORK CITY. WE'LL ME SEEING YOU THERE!

Leopold Lapitino, ETA, has received a bid to Fordham Law Reviews.

ALUMNI, *help KLEOS finance itself by subscribing. One dollar a year is all.*
